

A call for Agribusiness Entrepreneurs

Agribusiness Incubation Trust (AgBIT) Limited is Zambia's pioneer agribusiness incubator, focused on accelerating innovation and the growth of scalable enterprises in the sector. Established with the initial support of Danida through the UniBRAIN Facility, AgBIT is a unique public-private partnership initiative bringing together the private sector, research and university community to provide the requisite environment critical to enabling the sustainable take-off and growth of agribusiness startups and SMEs.

Through its business incubation program, AgBIT is supporting the rapid growth of small but high-potential enterprises (SMEs) and startups in the agribusiness sector, minimizing the risk of business failure in their formative years, and encouraging more innovation.

AgBIT is calling out all startups, entrepreneurs and everyone that has a business idea/ concept in the Agriculture sector, particularly horticulture, to sign up for the business incubation programme .

The programme offers the following services:-

1. Business Plan development
2. Mentorship & Coaching
3. Facilitate Product development
4. Linkage to Finance
5. Linkage to formal and lucrative markets
6. Networking platform in both local and international forums
7. Identification of appropriate technologies for farmers Agro processors to improve productivity
8. Various Training which include; food safety, Quality control (HACCP) Good Agriculture practices and customized training upon request.

Let us support you and watch your business grow
